6 Sir:
7 In response to the recent Office action, please amend the above-
8 referenced application as follows.

10 **INTRODUCTORY COMMENTS**

11
12 The Examiner has rejected claims 1 through 14 under 35 U.S.C. 112.
13 Applicant's proposed amendments obviate the Examiner's objections.

14
15 Also, Applicant has adopted the Examiner's suggestions to overcome
16 the informalities of the claims with respect to the drawings.

17
18 Applicant has canceled claims 3 through 14 and included their
19 limitations in claim 2. Claim 15 is amended to depend on claim 2. The
20 only limitation not incorporated in claim 2 from the dependent claims is
21 the manual control interface and the subject matter of claims 5 and 6
22 relating to this element. Nevertheless, this element, merely differentiated
23 the dependent claims.
